We are continually striving to improve the Gemini experience for you. Your feedback, received through our [weekly employer forums](#) or communications with Employer Services or Accounting staff, is incorporated into the application as it is developed. Gemini System Updates are provided with each new release to keep you informed by providing a summary of new features, improvements to existing features, resolved issues and known issues in the latest version of Gemini. Occasionally we may also include "tips and tricks" and "coming soon" items as well.

What's New

- **New fatal pay period reporting edits** have been created to validate the member's 401(a) (17) limit or Tier 2 limit. The Full Annual rate cannot be reported with a value greater than the applicable limit for the member. *(TRS Reference #131470)*
- **Annual Certification Workers' Compensation:** If a member has been added to the new Workers' Compensation screen, and then all Roll Up Details are zeroed out, the member will be removed from the Workers' Compensation screen. *(TRS Reference #140957)*
